

**First time to this veterinarian. He's by far the most thorough doctor I've ever been to; even better than my human doctor! Their staff is also very attentive and knowledgeable. Love the care they give my fur baby! I will definitely be telling others to bring their pets to Dr. Rocky! He truly cares!**

★★★★★ by Anon on 2016-01-16

**Dr. Rocky and his crew are professional, knowledgeable and compassionate. Their dedication to each and every animal that goes through the door is evidenced by the furry friends that live there. The little ones that no one wanted or was able to keep. The kittens scurry across the floors while an adult cat sits on the reception counter and monitors patient/staff interaction. Their facility is spotless - and with my two dogs, I'd love to learn their secret. The techs are easygoing and calm with your pet's care first in their minds. Dr. Rocky explains procedures, treatment options and test results in a no nonsense manner and oftentimes lets you know when something isn't needed. Sure, he has to make money. He, like every single one of us, has to earn money to provide for his family but when you hear that a treatment or procedure isn't needed, you realize that his animals are his first priority even over making an extra buck. If you want your vet to care for your pet as you would, then you've come to the right place.**

**I was so upset when I went to Turtle Creek, I had just got here from the mountains of Colorado, my mother had passed away and now my Jazzy Bella was so unhappy due to flea bites. They explained everything that was going on and explained what they were going to do to help my dog. I was not able to pay the full amount of the bill, and they allowed to make payments. This was the best experience I've had since being here in Texas. They have my business!**

**We have had many vets over the years with different dogs in different hometowns. The service here is average compared to the others, but the prices are horrendous. Honestly, I feel gouged each of the few times we have been there over the last year. When we put our dog down, it cost us over \$700 and on this most recent visit, with a dog with an irritated ear and diagnosed yeast infection, it cost over \$200, with 3 medicines and an injection. I believe this is overkill and ridiculous. They have been nice, informative and kind but with the EXTREMELY high prices, we will be looking elsewhere from now on. We simply can't afford their kindness.**

**Place is super clean and staff are nice and professional. They seem to truly understand how important my dog is to me and they treat her with care the way I would. This gives me peace on the days I have to leave her for the day! Extremely thorough explaining treatments, etc. and open and available to questions. Sensible, easy to deal with.**

★★★★★ by Shelly Martin on 2016-07-29

**I can not thank Dr. Rocky and Spencer enough for coming in to care for Triton. He is a 3 pound beagle that was stung in the face by a scorpion. We were so scared and we knew once he was in Dr. Rockys care everything that could be done, would be done! Dr. Rocky and staff know our dogs are family! And he and his staff always care for them as such. There isn't another vet we would ever take our fur-babies to. Thanks Dr. Rocky and Spencer!!!! Triton is doing great now!**

★★★★★ by Kimberly Veasey on 2016-07-28

**Jen was great on the phone & at check-in even though we were one of MANY clients in reception. Dr Rocky was fantastic & took time to address all my concerns, even as a new patient, despite the clinic being very busy! Our technician was fantastic and very caring with our boy! He also went over our medications & instructions thoroughly before we were released and checked to make sure we didn't have any questions. By that time the clinic was due to have already closed for the day (and it was Saturday no less!!) I never felt rushed & always welcome. I couldn't have asked for a better experience. We have definitely found our new veterinarian! Thanks again to Dr Rocky & ALL of his staff!**

**This was my first visit. My dog Jack had a broken leg and they were all so caring and got me in to see the vet right away. I am under the impression that everyone who works there is an animal lover. The facility was clean and the staff professional. But what impressed me most is the way everyone cared for my Jack. The vet and technician took a great deal of care explaining to me what was going on. I couldn't imagine leaving him in better hands. I would highly recommend Turtle Creek Veterinary Medical Center. Carole**

**My dog has a fairly severe allergy to fleas, and after months of trying every combination of medication, all-natural remedies, baths and soaks for her skin and sprays in the yard for prevention, I heard about TCVMC. My dog had spent almost 4 months in a cone because nothing would work for her and she was suffering quite a bit, but after an information-filled 30**

**minutes with the vet we came home and she was feeling drastically better within 4 hours of her first dose of meds. I actually forgot to put her cone back on the next day before work because she just hadn't been itching enough for me to even think of it, and when I got home that evening there was no evidence she'd chewed on her fur/skin at all! These guys know their stuff, they know their medications, and they fill you in on the costs and risks of treatment all along the way. I went in terrified I'd be dropping several hundred dollars on tests and shots, pills and ointment - but I spent much, much less than I was prepared to. This was a great vet experience overall, and I feel very safe bringing my baby back to TCVMC in the future.**

**Your facility is clean and open. The staff are friendly and even very forgiving towards my tardiness due to a first time visit and not being familiar with the area. The Veterinarian and assistant were pleasant. They were pretty thorough and seemed sincere. My only dissappointment was the high charges for the basic care given. I will be looking for something more economical to better suit my financial capability. I am a single mother and can't just throw \$200 down every time I take a kitten in for a check up.**

**Everyone in the office was friendly and very helpful. we were greeted right away, and we were seeing the Dr. within 30 minutes. The best part was that even though we were new to them, they got us in with an appointment within 1 hr of calling them. That is more than i could say for the vet we normally used. Yes used as we are switching vets. Our normal vet could not even see us that day, even though we had a cat that was very, very sick. I highly recommend this vet!**

**My beloved Lab mix, Theodore had an unfortunate, head-on collision with a tree, while pursuing his favorite prey, a wild hare. His mishap occurred just before closing time on a Saturday afternoon. The receptionist was kind and caring and quickly got Theodore in to see the vet, after hours. He was thoroughly examined. They stopped the bleeding, gave him the necessary treatments, prescribed medication, answered all my questions and fully explained what I was to do to help Theodore back to full health. They even gave me an emergency number to call if his condition worsened over the weekend. I give Turtle Creek VMC my highest rating for promptness, professionalism, courtesy, competence, and caring. Thanks to these fine folks, Theodore is feeling good as new and is back on the trail of rabbits, squirrels, and anything else that moves. Thank you, Dr. Rocky and staff !**

**Dr. Rocky and the staff at Turtle Creek Veterinary Medical Center are tops in my book! My aging Siamese would not be with me were it not for the care he receives from Dr. Rocky and staff. Nothing is too much trouble and they are never too busy to take time to care. My cat's disease had gone undiagnosed for years until I brought him in to see Dr. Rocky. In a matter of 20 minutes on our first visit we had a diagnosis for several issues and immediate help to resolve or maintain health. It has been several years since that first visit and my cat is still around and enjoying life. Everyday is a bonus.**

**Staff very friendly, veterinarian was wonderful! I even spoke to the manager who was attentive and quick to get back to me even after a busy clinic day. I was frustrated with a pricing quote that was outrageous. I didn't know where to place my frustration so I decided to call and speak with the manager and she corrected everything which is the reason I will be always bringing my animals to turtle creek. They were prompt in rooming us, very great with my animal. The rooms are even very very nice and comfortable, which is important even to the nervous animals!! Love this place! However, when pricing can get crazy and my animal needs attention, with only 1 income and a baby a little help with a payment plan would be nice.. Care credit is not always an option.**

Dr. Rocky is a very caring vet and is always gentle and kind to my dog. He is very interested in helping my dog get better. The techs are very helpful, too.

**I found Turtle Creek Veterinary Medical Center and it's staff to be very professional and helpful. Dr. Rocky was very likable and knowledgeable and was very gentle with my dog, Carl. He gave his honest opinion and I appreciated that. Amy was cheerful and helpful and knew what she was doing. The clinic was clean and nice and I will be happy to take the rest of my crew (3 dogs and 3 cats) there for future needs.**

**I have only been going to TCVC for a few weeks, but the staff and Dr. Rocky are FANTASTIC. Had to have one of my boys put to sleep and they even personalized (his paw prints and name)on a medallion. This was the sweetest thing imaginable and it hangs by my door. Each time I took him in, the staff called at least each of 2 days following his visit to check up on him. Not only was the staff superlative, but Dr. Rocky was very thorough in reviewing his prior med. records and following through with the necessary procedures. I will continue to use this clinic from now on for my other "boy" and recommend them to every one I know.**

**I grew up helping in my Dad's vet clinic and up until a couple years ago when he retired, he cared for our pets. I brought Major for the first time last year hoping to establish a relationship with a local vet since my dad is retired. I can say I was very happy with the reception, check in/check out, etc. Everything seemed clean, tidy and everyone I met was friendly. Maybe with Major just needing shots, an actual exam by the vet isn't included? I'm hoping Major can have an exam on my next visit. Should I ask for that next time? Is there an extra fee involved for an exam with the shots? I'd like to mark much higher than "average" and that I'd recommend "in a heartbeat" on the overall feedback but I can't say that I would just yet. I'm hoping Dr. Rocky will be able to take the time to get to know my pet. I see tremendous value over pet store/cause for paws vaccinations in that someone I know and who knows my pet is involved in his care. Maybe I should have asked specifically for an exam.....I've never seen it handled any other way than at least a brief exam in conjunction with shots. Thanks for your time, Ben**

**This was my first visit at the office with a new puppy. I only came here because my regular vet could not get us in on the same day and I needed to get my new puppy in for an exam for his "warranty of health" from the breeder. The office was very accommodating and got me in right away. I was greeted at the door with a warm and friendly smile. The friendliness continued into the back office with the tech and Dr Rocky as well as he examined my new puppy. The explanations of some medications I was given were thorough and I felt that I understood everything when I left. Ample time was provided for me to ask questions and they were answered confidently and I was satisfied as a health care provider (for humans!) I know the value of good care. I might have just found a new vet. Thanks!!!!**

**We took our young kitty, Ziggy, to Dr Rocky for annual shots, a chip and also had a concern because Ziggy had ingested a bit of artificial Christmas greenery. We couldn't have been more pleased with our first visit. The staff was extremely friendly and made us feel welcome. Dr Rocky is exceptionally knowledgeable and shared new insights with us regarding feline health and wellness. He also referred to Ziggy and other pets as our kiddos which is important since they truly are family and our little fur babies. We were extremely impressed with Dr Rocky and thankful for our new vet! Telling others about Turtle Creek!**

**First time at Turtle Creek Vet and I love everything about it, the friendly staff, the place itself is really nice and the exam room were i waited for Dr Rocky when he came in he was very friendly and sweet to my baby after examining him from top to bottom not just that one spot i was concerned about, he explain evrything to me so good and did not mind my questions one bit. Today I received a call and it was from Dr Rockys vet to check and see how my dog was doing, that really impress me so happy they care about my baby and took the time to call me. Would recomend and will def be using him again as well.**

★★★★★ by Marycruz Ortiz on 2014-10-20

First time at Turtle Creek Vet and I love everything about it, the friendly staff, the place itself is really nice and the exam room were i waited for Dr Rocky when he came in he was very friendly and sweet to my baby after examining him from top to bottom not just that one spot i was concerned about, he explain evrything to me so good and did not mind my questions one bit. Today I received a call and it was from Dr Rockys vet to check and see how my dog was doing, that really impress me so happy they care about my baby and took the time to call me. Would recomend and will def be using him again as well.

**I was able to get a same-day appointment as a new customer! We were immediately brought to a sun-filled room that my cat loved. The seating was comfortable. We didn't wait long to see Dr. Rocky, who was gentle and had a good disposition with my cat. I was shown an estimate of services before they were rendered. Dr. Rocky was friendly, loud, clear, and thorough with his instructions. The staff was really awesome. They even called the next day to follow up. Thanks to my sister for recommending them.**

**Two words: Class Act! Dr. Rocky and his staff are AWESOME! Even before I became a client of theirs, they were willing to offer help during an emergency with my dog Pebbles. They were in constant contact with me and the Vet Hospital when my own vet (former vet now) didn't even call to check on Pebbles. That spoke volumes to me. After that, it was a no brainer..... I moved my other dog Coco to the care of Dr. Rocky. On Coco's first visit, she felt so comfortable that she fell asleep under the chair while we discussed her care. They have been very caring and attentive to mine and my pets needs. Glad to be a new client!**

I cannot find one single bad thing to comment about Turtle Creek VMC. The staff is always very nice and knowledgeable. I know when I take Max in for his visits or his appts, he is not only going to receive care but love as well. You can't ask for any better than that. Turtle Creek is the absolute best!!!! Rita M.

**We are so grateful for our friends at Turtle Creek Veterinary Medical Center. We're not sure how well they treat pet turtles but our two dogs are healthy thanks to them. We are also thankful that they provide a caring atmosphere for us to ask questions about the health and care of our pets. We do take the time to ask questions during our dogs annual check up so we can monitor their health. Dogs don't speak but they do communicate with us and it is up to us to determine if they need attention. The staff at this clinic are always patient as we take time to make sure our pets lead a healthy and happy existence. Thanks Turtle Creek for making the preventative care and appointment upkeep for our pets so easy!**

**I have a cat, Max, who loves going to see Dr. Rocky and his staff. They treat him with compassion and kindness. From the very first day I walked in the office, I knew everyone there was an animal lover and would value my pet just as I do. Max recently had to have some dental work done and Dr. Rocky took exceptional care of him and resolved the problem. He came home the same day of the surgery and in a few days he was purring around the house and wanted to play! Turtle Creek VMC is worth 100% of your time to take your pet there. They will do everything in their power to not just take care of your pet**

**but will treat them and resolve any medical issues your pet may have. Your pet will be loved and teated as one of their own!!!**

★★★★★ by Rita Maddux on 2013-09-27

**I began taking one of my dogs to Turtle Creek shortly after they opened. At that time it was only Dr Rocky and one or two staff. They treated my dog with great care and kindness. Since then I have taken all my animals to Turtle Creek. I had a hound that was badly torn up in a fight. Dr. Rocky examined her and we discussed options. Together we decided to do what could be done to save her. Due to Dr. Rocky's care she lived a happy and healthy life for four more years. I have every trust in Dr. Rocky and his staff to care for my animals. They have always gone the extra mile to provide our animals with the best of care. They were there for us in the middle of the night when we had two different dogs torsion. They have been there for two C sections and were eager to see the pups grow and find homes. I know I can count on the Turtle Creek staff to provide me with information when I need it and to keep me advised when any of our animals need up dates on shots, tests or medicine.**

**Everyone there is very professional and nice. I love that I don't have to spend all day there when I have an appointment. Dr. Rocky is always very thorough in his examinations even if his patient is not too happy with it.**

**I have a cat, Max, who adores going to see Dr. Rocky and the staff at Turrle Creek VMC. The staff are always warm and friendly and Dr. Rocky is a saint! He is a "natural" when it comes to being a vet! Not only does he enjoy his work (it shows in his attitude) but he loves animals. The staff and Dr. Rocky just have a way with animals that puts them and their owners at ease. I would never think of going to another vet! If you are looking for the perfect veterinarian for your pet, you do**

**not need to look any further than Dr. Rocky and the entire staff at Turtle Creek VMC!! You will be extremely happy that you took your loving pet to see them!!**

**After moving here from Austin almost eight years ago, we "shopped" around at all of the veterinary clinics in Greenville and were not impressed. We were looking for the best of care for our four-legged family members. Most that we visited were either not very friendly or professional--until Turtle Creek Veterinary opened. Dr. Rocky and his staff are friendly, efficient and have state-of-the art equipment and knowledge, plus treat our furry family members with love. In addition, they don't keep you waiting for an hour or two for your appointment as we experienced with other clinics! I heartily recommend Dr. Rocky and his staff at Turtle Creek to all of my friends and neighbors!**
